QUARTERLY REPORT

for the three and nine months ended June 30, 2020 and 2019

AmeriGas Partners, L.P. ("AmeriGas Partners") is an indirect, wholly owned subsidiary of UGI Corporation ("UGI"), with no class of securities registered under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). As a result, AmeriGas Partners is not subject to the current and periodic reporting requirements of the Exchange Act. This quarterly report is provided to bondholders for informational purposes only pursuant to contractual requirements under certain indentures governing the rights of bondholders, and shall not constitute an offer to sell or the solicitation of an offer to buy any securities. As a result, none of UGI, AmeriGas Partners nor any of their respective affiliates accepts, and each specifically disclaims, any liability under federal securities laws whatsoever in connection with the provision of this quarterly report, including any liability under the Exchange Act or the Securities Act of 1933, as amended.

## Note 1 — Nature of Operations

AmeriGas Partners conducts a national propane distribution business through its principal operating subsidiary, AmeriGas OLP. AmeriGas Partners and AmeriGas OLP are Delaware limited partnerships. AmeriGas OLP is engaged in the distribution of propane and related equipment and supplies. AmeriGas OLP comprises the largest retail propane distribution business in the United States serving residential, commercial, industrial, motor fuel and agricultural customers in all 50 states. AmeriGas Propane, Inc., currently serves as the General Partner of AmeriGas Partners through its' non-economic general partner interest in AmeriGas Partners and, prior to the AmeriGas Merger, its' 1% general partner interest in AmeriGas Partners.

On August 21, 2019, the AmeriGas Merger was completed in accordance with the terms of the Merger Agreement. Under the terms of the Merger Agreement, UGI acquired all of the outstanding Common Units not already held by UGI or its subsidiaries for cash and shares of UGI Common Stock, and AmeriGas Partners was merged with and into Merger Sub, with AmeriGas Partners surviving as an indirect wholly owned subsidiary of UGI. Also as a result of the AmeriGas Merger, the IDRs held by the General Partner were canceled and the General Partner received 10,615,711 Common Units in conjunction with the cancellation of the IDRs. In addition, the General Partner interest was converted to a non-economic general partner interest in AmeriGas Partners. Effective with completion of the AmeriGas Merger, Common Units are no longer publicly traded. The AmeriGas Merger had no impact on the book value of the assets and liabilities of the Partnership.

On September 30, 2019, the General Partner contributed its 1.01% general partner interest in AmeriGas OLP to AmeriGas Partners which contributed such general partner interest to its newly formed, wholly owned subsidiary, AmeriGas Propane GP, LLC. The General Partner received 1,058,368 Common Units in AmeriGas Partners in consideration for the contribution of the 1.01% general partner interest in AmeriGas OLP.

AmeriGas Partners and AmeriGas OLP have no employees. Employees of the General Partner conduct, direct and manage our operations. The General Partner is reimbursed monthly for all direct and indirect expenses it incurs on the Partnership's behalf (see Note 12).

## Note 2 — Summary of Significant Accounting Policies

The accompanying condensed consolidated financial statements are unaudited and have been prepared in accordance with GAAP. They include all adjustments which we consider necessary for a fair statement of the results for the interim periods presented. Such adjustments consist only of normal recurring items unless otherwise disclosed. The September 30, 2019, Condensed Consolidated Balance Sheet was derived from audited financial statements but does not include all footnote disclosures from the annual financial statements. These financial statements should be read in conjunction with the Partnership's 2019 Annual Report.

Weather significantly impacts demand for propane and profitability because many customers use propane for heating purposes. Due to the seasonal nature of the Partnership's propane business, the results of operations for interim periods are not necessarily indicative of the results to be expected for a full year.

Allocation of Net Income (Loss). Prior to the AmeriGas Merger, net income (loss) attributable to AmeriGas Partners, L.P. for partners' capital and statement of operations presentation purposes was allocated to the General Partner and the limited partners in accordance with their respective ownership percentages after giving effect to amounts distributed to the General Partner in excess of its general partner interest in AmeriGas Partners based on its IDRs under the Partnership Agreement. Effective with the completion of the AmeriGas Merger, the limited partners are allocated 100% of the Partnership's net income.

**Derivative Instruments.** Derivative instruments are reported on the Condensed Consolidated Balance Sheets at their fair values, unless the NPNS exception is elected. Since we do not currently have derivative instruments that are designated and qualify as cash flow hedges, changes in fair value of our commodity derivative instruments that are not subject to the NPNS exception are reflected in "Cost of sales — propane" on the Condensed Consolidated Statements of Operations. Cash flows from commodity derivative instruments are included in cash flows from operating activities on the Condensed Consolidated Statements of Cash Flows.

#### **Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Thousands of dollars, except where indicated otherwise)

For a more detailed description of the derivative instruments we use, our accounting for derivatives, our objectives for using them and other information, see Note 10.

Leases. Effective October 1, 2019, the Partnership adopted ASU No. 2016-02, "Leases," which, as amended, is included in ASC 842. This new accounting guidance supersedes previous lease accounting guidance in ASC 840 and requires entities that lease assets to recognize the assets and liabilities for the rights and obligations created by those leases on its balance sheet. The new guidance also requires additional disclosures about the amount, timing and uncertainty of cash flows from leases.

We adopted ASC 842 using the modified retrospective transition method. Amounts and disclosures related to periods prior to October 1, 2019 have not been restated and continue to be reported in accordance with ASC 840. Upon adoption of ASC 842, we elected to apply the following practical expedients in accordance with the guidance:

- Short-term leases: We did not recognize short-term leases (term of 12 months or less) on the balance sheet;
- Easements: We did not re-evaluate existing land easements that were not previously accounted for as leases; and
- Other: We did not reassess the classification of expired or existing contracts or determine whether they are or contain a lease. We also did not reassess whether initial direct costs qualify for capitalization under ASC 842.

Upon adoption, we recorded ROU assets and lease liabilities of \$388,260 related to our operating leases. There were no cumulative effect adjustments made to opening partners' capital as of October 1, 2019. The adoption did not, and is not expected to, have a significant impact on our condensed consolidated statements of operations or cash flows. See Note 7 for additional disclosures regarding our leases.

*Use of Estimates.* The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and costs. These estimates are based on management's knowledge of current events, historical experience and various other assumptions that are believed to be reasonable under the circumstances. Accordingly, actual results may be different from these estimates and assumptions.

**Reclassifications.** Certain prior-period amounts have been reclassified to conform to the current-period presentation.

**Subsequent Events.** Management has evaluated the impact of subsequent events through August 4, 2020, the date these condensed consolidated financial statements were issued and the effects, if any, of such evaluation have been reflected in the condensed consolidated financial statements and related disclosures.

#### Note 3 — Accounting Changes

## **New Accounting Standards Adopted in Fiscal 2020**

**Derivatives and Hedging.** Effective October 1, 2019, the Partnership adopted ASU No. 2017-12, "Targeted Improvements to Accounting for Hedging Activities." This ASU amends and simplifies existing guidance to allow companies to more accurately present the economic effects of risk management activities in the financial statements. For cash flow and net investment hedges as of the adoption date, the guidance required a modified retrospective approach. The amended presentation and disclosure guidance was required prospectively. The adoption did not have a material impact on our consolidated financial statements.

*Leases.* Effective October 1, 2019, the Partnership adopted new accounting guidance for leases in accordance with ASC 842. See Notes 2 and 7 for a detailed description of the impact of the new guidance and related disclosures.

#### **Accounting Standards Not Yet Adopted**

Credit Losses. In June 2016, the FASB issued ASU 2016-13, "Measurement of Credit Losses on Financial Instruments." This ASU, as subsequently amended, requires entities to estimate lifetime expected credit losses for financial instruments not measured at fair value through net income, including trade and other receivables, net investments in leases, financial receivables, debt securities, and other financial instruments, which may result in earlier recognition of credit losses. Further, the new current expected credit loss model may affect how entities estimate their allowance for loss for receivables that are current with respect to their payment terms. ASU 2016-13 is effective for the Partnership for interim and annual periods beginning

#### **Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Thousands of dollars, except where indicated otherwise)

October 1, 2020 (Fiscal 2021). Early adoption is permitted, however, the Partnership expects to adopt the new guidance in the first quarter of Fiscal 2021. The Partnership is in the process of assessing the impact on its financial statements from the adoption of the new guidance.

Reference Rate Reform. In March 2020, the FASB issued ASU 2020-04, "Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting." This ASU provides entities with temporary optional guidance to ease potential accounting burdens to transition away from LIBOR or other reference rates that are expected to be discontinued and replaced with alternative reference rates. This ASU applies to all entities that have contracts, hedging relationships and other transactions affected by reference rate reform. The provisions in this ASU, among other things, simplify contract modification accounting. ASU 2020-04 is effective upon issuance and entities are able to apply the amendments prospectively through December 31, 2022. The Partnership is in the process of assessing the impact on its financial statements from the adoption of the new guidance and determining the period in which the optional expedients will be elected.

#### Note 4 — Revenue from Contracts with Customers

We recognize revenue when control of the promised goods or services is transferred to customers in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services. See Note 4 in the Partnership's 2019 Annual Report for additional information on our revenues from contracts with customers.

#### **Revenue Disaggregation**

The following table presents our disaggregated revenues for the three and nine months ended June 30, 2020 and 2019:

| T  | hree Months | ed June 30,   |   | Nine Months I  | Ende  | d June 30,   |  |  |      |  |      |  |      |  |      |  |      |  |      |  |      |  |      |  |      |  |      |  |      |  |      |  |      |  |      |  |      |  |      |  |      |

<sup>(</sup>a) Primarily represents revenues from tank rentals that are not within the scope of ASC 606 and accounted for in accordance with other GAAP.

#### **Contract Balances**

The timing of revenue recognition may differ from the timing of invoicing to customers or cash receipts. Contract assets represent the Partnership's right to consideration after the performance obligations have been satisfied when such right is conditioned on something other than the passage of time. Contract assets were not material for all periods presented. Substantially all of the Partnership's receivables are unconditional rights to consideration and are included in "Accounts receivable" on the Condensed Consolidated Balance Sheets. Amounts billed are generally due within the following month.

Contract liabilities arise when payment from a customer is received before the performance obligations have been satisfied and represent the Partnership's obligations to transfer goods or services to a customer for which the Partnership has received consideration from the customer. The balances of contract liabilities were \$57,089, \$88,569 and \$54,836 at June 30, 2020, September 30, 2019 and June 30, 2019, respectively, and are included in "Customer deposits and advances" and "Other current liabilities" on the Condensed Consolidated Balance Sheets. Revenues recognized for the nine months ended June 30, 2020 and 2019, from the amounts included in contract liabilities at September 30, 2019 and October 1, 2018, were \$69,581 and \$74,154, respectively.

#### **Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Thousands of dollars, except where indicated otherwise)

## **Remaining Performance Obligations**

The Partnership has elected to use practical expedients as allowed in ASC 606 to exclude disclosures related to the aggregate amount of the transaction price allocated to the performance obligations that are unsatisfied as of the end of the reporting period because these contracts have an initial expected term of one year or less or we have a right to bill the customer in an amount that corresponds directly with the value of services provided to the customer to date.

## Note 5 — Inventories

Inventories comprise the following:

|                               | <br>June 30,<br>2020 | Se | ptember 30,<br>2019 | June 30,<br>2019 |
|-------------------------------|----------------------|----|---------------------|------------------|
| Propane gas                   | \$<br>76,604         | \$ | 78,345              | \$<br>76,958     |
| Materials, supplies and other | 14,050               |    | 11,931              | 15,212           |
| Appliances for sale           | 7,221                |    | 7,351               | 7,502            |
| Total inventories             | \$<br>97,875         | \$ | 97,627              | \$<br>99,672     |

#### Note 6 — Goodwill and Intangible Assets

The Partnership's goodwill and intangible assets comprise the following:

|   | June 30,<br>2020 | Sej | ptember 30,<br>2019 | June 30,<br>2019 |
|---|------------------|-----|---------------------|------------------|
| Goodwill                                | \$<br>2,003,671  | \$  | 2,003,671           | \$<br>2,003,671  |
| Intangible assets:                      |                  |     |                     |                  |
| Customer relationships                  | \$<br>473,695    | \$  | 473,695             | \$<br>473,695    |
| Trademarks and tradenames               | 7,944            |     | 7,944               | 7,944            |
| Noncompete agreements                   | 23,207           |     | 23,207              | 23,207           |
| Accumulated amortization                | (294,897)        |     | (265,152)           | (255,323)        |
| Intangible assets, net (definite-lived) | \$<br>209,949    | \$  | 239,694             | \$<br>249,523    |

Amortization expense of intangible assets was \$10,486 and \$9,840 for the three months ended June 30, 2020 and 2019, respectively, and \$29,745 and \$30,085 for the nine months ended June 30, 2020 and 2019, respectively. No amortization expense is included in cost of sales on the Condensed Consolidated Statements of Operations. The estimated aggregate amortization expense of intangible assets for the remainder of Fiscal 2020 and the next four fiscal years is as follows: remainder of Fiscal 2020 — \$9,686; Fiscal 2021 — \$35,914; Fiscal 2022 — \$32,963; Fiscal 2023 — \$31,627; Fiscal 2024 — \$30,823.

## Note 7 — Leases

#### Lessee

We lease various buildings and other facilities, real estate, vehicles, rail cars and other equipment, which are operating leases. We determine if a contract is or contains a lease by evaluating whether the contract explicitly or implicitly identifies an asset, whether we have the right to obtain substantially all of the economic benefits of the identified leased asset and to direct its use.

ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. We recognize ROU assets at the lease commencement date at the value of the lease liability adjusted for any prepayments, lease incentives received, and initial direct costs incurred. Lease liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. These payments are discounted using the discount rate implicit in the lease, when available. We apply an incremental borrowing rate, which is developed utilizing a credit notching approach based on information available at the lease commencement date, to substantially all of our leases as the implicit rate is often not available.

#### **Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Thousands of dollars, except where indicated otherwise)

Lease expense is recognized on a straight-line basis over the expected lease term. Renewal and termination options are not included in the lease term unless we are reasonably certain that such options will be exercised. Leases with an original lease term of one year or less, including consideration of any renewal options assumed to be exercised, are not included in the Condensed Consolidated Balance Sheets.

Certain lease arrangements, primarily fleet vehicle leases with lease terms of one to ten years, contain purchase options. The Partnership generally excludes purchase options in evaluating its leases unless it is reasonably certain that such options will be exercised. Additionally, leases of fleet vehicles often contain residual value guarantees that are due at the end of the lease. Such amounts are included in the determination of lease liabilities when we are reasonably certain that they will be owed.

Certain leasing arrangements require variable payments that are dependent on asset usage or are based on changes in index rates, such as the Consumer Price Index. The variable payments component of such leases cannot be determined at lease commencement and is not recognized in the measurement of ROU assets or lease liabilities, but is recognized in earnings in the period in which the obligation occurs.

ROU assets and lease liabilities recorded in the Condensed Consolidated Balance Sheet are as follows:

|  | Jur | ne 30, 2020 | Location on the Balance Sheet |
|--|-----|-------------|-------------------------------|
| Operating lease ROU assets               | \$  | 343,034     | Other assets                  |
|  |     |             |                               |
| Lease liabilities:                       |     |             |                               |
| Operating lease liabilities — current    | \$  | 66,842      | Other current liabilities     |
| Operating lease liabilities — noncurrent |     | 282,427     | Other noncurrent liabilities  |
| Total lease liabilities                  | \$  | 349,269     |                               |

The components of lease cost are as follows:

|                       | <br>Months Ended<br>e 30, 2020 | Ni | ine Months Ended<br>June 30, 2020 |
|-----------------------|--------------------------------|----|-----------------------------------|
| Operating lease cost  | \$<br>20,413                   | \$ | 62,180                            |
| Variable lease cost   | 1,570                          |    | 4,386                             |
| Short-term lease cost | <br>431                        |    | 1,708                             |
| Total lease cost      | \$<br>22,414                   | \$ | 68,274                            |

The following table presents the cash and non-cash activity related to lease liabilities included in the Condensed Consolidated Statement of Cash Flows occurring during the period:

|  | <br>nths Ended<br>0, 2020 |
|--|---------------------------|
| Cash paid related to lease liabilities:  |                           |
| Operating cash flows — operating leases  | \$<br>61,862              |
|  |                           |
| Non-cash lease liability activities:   |                           |
| ROU assets obtained in exchange for operating lease liabilities (including the impact upon adoption) | \$<br>392,733             |

#### **Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Thousands of dollars, except where indicated otherwise)

The following table presents the weighted-average remaining lease term and weighted-average discount rate as of June 30, 2020:

|                  | Weighted - Average<br>Remaining Term | Weighted - Average<br>Discount Rate |
|------------------|--------------------------------------|-------------------------------------|
| Operating leases | 6.3 years                            | 4.2%                                |

Expected annual lease payments based on maturities of operating leases, as well as a reconciliation to the lease liabilities on the Condensed Consolidated Balance Sheet, as of June 30, 2020, were as follows:

|                  | <br>mainder<br>f Fiscal<br>2020 | Fiscal<br>2021 | ]  | Fiscal<br>2022 | Fiscal<br>2023 | ]  | Fiscal<br>2024 | F    | After<br>iscal<br>2024 | Total<br>Lease<br>Paymer | •  | Impute<br>Interes |     | Lease<br>Liabilities |
|------------------|---------------------------------|----------------|----|----------------|----------------|----|----------------|------|------------------------|--------------------------|----|-------------------|-----|----------------------|
| Operating leases | \$<br>20,604                    | \$<br>77,542   | \$ | 67,044         | \$<br>59,700   | \$ | 51,506         | \$ 1 | 122,599                | \$398,99                 | 95 | \$ (49,7          | 26) | \$ 349,269           |

At June 30, 2020, operating leases that had not yet commenced were not material.

#### Disclosures Related to Periods Prior to Adoption of ASC 842

As discussed above, the Partnership adopted ASC 842 effective October 1, 2019, using a modified retrospective approach. As required, the following disclosure is provided for periods prior to adoption. The Partnership's future minimum payments under non-cancelable operating leases at September 30, 2019, which were accounted for under ASC 840, were as follows:

|                                  | Fiscal<br>2020 | Fiscal<br>2021 | Fiscal<br>2022 | Fiscal<br>2023 | Fiscal<br>2024 | After<br>Fiscal<br>2024 |
|----------------------------------|----------------|----------------|----------------|----------------|----------------|-------------------------|
| Minimum operating lease payments | \$ 84,010      | \$ 73,420      | \$ 61,862      | \$ 53,544      | \$ 45,034      | \$ 94,778               |

#### Lessor

We enter into lessor arrangements that grant customers the right to use small, medium and large storage tanks to store propane, which we classify as operating leases. In general, these arrangements are typically short-term (12 months or less) and can be extended on a year-to-year basis. Lease income is generally recognized on a straight-line basis over the lease term and included in "Revenues – Other" on the Condensed Consolidated Statements of Operations (see Note 4).

#### Note 8 — Commitments and Contingencies

## **Contingencies**

Saranac Lake Environmental Matter. In 2008, the NYDEC notified AmeriGas OLP that the NYDEC had placed property purportedly owned by AmeriGas OLP in Saranac Lake, New York on the New York State Registry of Inactive Hazardous Waste Disposal Sites. A site characterization study performed by the NYDEC disclosed contamination related to a former MGP. AmeriGas OLP responded to the NYDEC in 2009 to dispute the contention it was a PRP as it did not operate the MGP and appeared to only own a portion of the site. In 2017, the NYDEC communicated to AmeriGas OLP that the NYDEC had previously issued three RODs related to remediation of the site totaling approximately \$27,700 and requested additional information regarding AmeriGas OLP's purported ownership. AmeriGas OLP renewed its challenge to designation as a PRP and identified potential defenses. The NYDEC subsequently identified a third party PRP with respect to the site.

The NYDEC commenced implementation of the remediation plan in the spring of 2018. Based on our evaluation of the available information as of June 30, 2020, the Partnership has an undiscounted environmental remediation liability of \$7,545 related to the site. Our share of the actual remediation costs could be significantly more or less than the accrued amount.

#### **Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Thousands of dollars, except where indicated otherwise)

**Purported Class Action Lawsuits.** Between May and October of 2014, purported class action lawsuits were filed in multiple jurisdictions against the Partnership/UGI and a competitor by certain of their direct and indirect customers. The class action lawsuits allege, among other things, that the Partnership and its competitor colluded, beginning in 2008, to reduce the fill level of portable propane cylinders from 17 pounds to 15 pounds and combined to persuade their common customer, Walmart Stores, Inc., to accept that fill reduction, resulting in increased cylinder costs to retailers and end-user customers in violation of federal and certain state antitrust laws. The claims seek treble damages, injunctive relief, attorneys' fees and costs on behalf of the putative classes.

On October 16, 2014, the United States Judicial Panel on Multidistrict Litigation transferred all of these purported class action cases to the Western Missouri District Court. As the result of rulings on a series of procedural filings, including petitions filed with the Eighth Circuit and the U.S. Supreme Court, both the federal and state law claims of the direct customer plaintiffs and the state law claims of the indirect customer plaintiffs were remanded to the Western Missouri District Court. The decision of the Western Missouri District Court to dismiss the federal antitrust claims of the indirect customer plaintiffs was upheld by the Eighth Circuit. On April 15, 2019, the Western Missouri District Court ruled that it has jurisdiction over the indirect purchasers' state law claims and that the indirect customer plaintiffs have standing to pursue those claims. On August 21, 2019, the District Court partially granted the Partnership's motion for judgment on the pleadings and dismissed the claims of indirect customer plaintiffs from ten states and the District of Columbia.

On October 2, 2019, the Partnership reached an agreement to resolve the claims of the direct purchaser class of plaintiffs; the agreement received final court approval on June 18, 2020.

Although we cannot predict the final results of these pending claims and legal actions, we believe, after consultation with counsel, that the final outcome of these matters will not have a material effect on our financial statements.

In addition to the matters described above, there are other pending claims and legal actions arising in the normal course of our businesses. Although we cannot predict the final results of these pending claims and legal actions, we believe, after consultation with counsel, that the final outcome of these matters will not have a material effect on our financial statements.

#### Note 9 — Fair Value Measurements

#### **Recurring Fair Value Measurements**

The following table presents, on a gross basis, our derivative assets and liabilities, including both current and noncurrent portions, that are measured at fair value on a recurring basis within the fair value hierarchy:

|                            | Asset (Liability) |           |    |          |    |         |    |          |
|----------------------------|-------------------|-----------|----|----------|----|---------|----|----------|
|                            | L                 | Level 1 L |    | Level 2  |    | Level 3 |    | Total    |
| June 30, 2020:             |                   |           |    |          |    |         |    |          |
| Assets:                    |                   |           |    |          |    |         |    |          |
| Commodity contracts        | \$                | _         | \$ | 11,915   | \$ | _       | \$ | 11,915   |
| Liabilities:               |                   |           |    |          |    |         |    |          |
| Commodity contracts        | \$                | _         | \$ | (28,271) | \$ | _       | \$ | (28,271) |

| Commodity contracts        | \$                | _         | \$ | (19,995) | \$ | _       | \$ | (19,995) |

#### **Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Thousands of dollars, except where indicated otherwise)

The fair values of our non-exchange traded commodity derivative contracts included in Level 2 are based upon indicative price quotations available through brokers, industry price publications or recent market transactions and related market indicators.

#### **Other Financial Instruments**

The carrying amounts of other financial instruments included in current assets and current liabilities (except for current maturities of long-term debt) approximate their fair values because of their short-term nature. We estimate the fair value of long-term debt by using current market rates and by discounting future cash flows using rates available for similar type debt (Level 2). The carrying amounts and estimated fair values of our long-term debt (including current maturities but excluding unamortized debt issuance costs) were as follows:

|                      | June 30, 2020   | Se | ptember 30, 2019 | June 30, 2019 |           |  |
|----------------------|-----------------|----|------------------|---------------|-----------|--|
| Carrying amount      | \$<br>2,584,990 | \$ | 2,588,261        | \$            | 2,593,504 |  |
| Estimated fair value | \$<br>2,698,053 | \$ | 2,780,768        | \$            | 2,724,645 |  |

Financial instruments other than derivative instruments, such as short-term investments and trade accounts receivable, could expose us to concentrations of credit risk. We limit credit risk from short-term investments by investing only in investment-grade commercial paper, money market mutual funds, securities guaranteed by the U.S. Government or its agencies and FDIC insured bank deposits. The credit risk arising from concentrations of trade accounts receivable is limited because we have a large customer base that extends across many different U.S. markets and a number of foreign countries. For information regarding concentrations of credit risk associated with our derivative instruments, see Note 10.

#### Note 10 — Derivative Instruments and Hedging Activities

The Partnership is exposed to certain market risks associated with its ongoing business operations. Management uses derivative financial and commodity instruments, among other things, to manage these risks. The primary risk managed by derivative instruments is commodity price risk. Although we use derivative financial and commodity instruments to reduce market risk associated with forecasted transactions, we do not use derivative financial and commodity instruments for speculative or trading purposes. The use of derivative instruments is controlled by our risk management and credit policies which govern, among other things, the derivative instruments the Partnership can use, counterparty credit limits and contract authorization limits. Although our commodity derivative instruments extend over a number of years, a significant portion of our commodity derivative instruments economically hedge commodity price risk during the next twelve months. For additional information on the accounting for our derivative instruments, see Note 2.

## **Commodity Price Risk**

In order to manage market risk associated with the Partnership's fixed-price programs, the Partnership uses over-the-counter derivative commodity instruments, principally price swap contracts. In addition, the Partnership, from time to time, enters into price swap agreements to reduce the effects of short-term commodity price volatility. At June 30, 2020, September 30, 2019 and June 30, 2019, total volumes associated with propane commodity derivatives totaled 518.7 million gallons, 523.2 million gallons and 399.5 million gallons, respectively. At June 30, 2020, the maximum period over which we are economically hedging propane market price risk is 27 months.

To mitigate short-term market volatility associated with commodity instruments, the Partnership from time to time enters into diesel swap contracts for a portion of diesel volumes expected to be used in the operation of vehicles and equipment. At June 30, 2020, volumes associated with diesel swap contracts were not material.

#### **Derivative Instruments Credit Risk**

The Partnership is exposed to credit loss in the event of nonperformance by our derivative instrument counterparties. Our derivative instrument counterparties principally comprise major energy companies and major U.S. financial institutions. We maintain credit policies with regard to our counterparties that we believe reduce overall credit risk. These policies include evaluating and monitoring our counterparties' financial condition, including their credit ratings, and entering into agreements

#### **Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Thousands of dollars, except where indicated otherwise)

with counterparties that govern credit limits. Certain of these agreements call for the posting of collateral by the counterparty or by the Partnership in the forms of letters of credit, parental guarantees or cash. Although we have concentrations of credit risk associated with derivative instruments, the maximum amount of loss we would incur if the counterparties failed to perform according to the terms of their contracts, based upon the gross fair values of the derivative instruments, was not material at June 30, 2020. Certain of our derivative contracts have credit-risk-related contingent features that may require the posting of additional collateral in the event of a downgrade in the Partnership's debt rating. At June 30, 2020, if the credit-risk-related contingent features were triggered, the amount of collateral required to be posted would not be material.

#### Offsetting Derivative Assets and Liabilities

Derivative assets and liabilities are presented net by counterparty on the Condensed Consolidated Balance Sheets if the right of offset exists. Our derivative instruments comprise over-the-counter transactions. Over-the-counter contracts are bilateral contracts that are transacted directly with a third party. Certain over-the-counter contracts contain contractual rights of offset through master netting arrangements and contract default provisions. In addition, the contracts are subject to conditional rights of offset through counterparty nonperformance, insolvency, or other conditions.

In general, most of our over-the-counter transactions are subject to collateral requirements. Types of collateral generally include cash or letters of credit. Cash collateral paid by us to our over-the-counter derivative counterparties, if any, is reflected in the table below to offset derivative liabilities. Cash collateral received by us from our over-the-counter derivative counterparties, if any, is reflected in the table below to offset derivative assets. Certain other accounts receivable and accounts payable balances recognized on the Condensed Consolidated Balance Sheets with our derivative counterparties are not included in the table below but could reduce our net exposure to such counterparties because such balances are subject to master netting or similar arrangements.

#### **Fair Value of Derivative Instruments**

The following table presents our derivative assets and liabilities by type, as well as the effects of offsetting:

|   | June 30, September 30<br>2020 2019 |          |    | June 30,<br>2019 |    |          |
|---|------------------------------------|----------|----|------------------|----|----------|
| Derivative assets:  |                                    |          |    |                  |    |          |
| Derivative assets not designated as hedging instruments:      |                                    |          |    |                  |    |          |

| Total derivative assets — gross                               | '                                  | 11,915   |    | 105              |    | 7,428    |
| Gross amounts offset in the balance sheet                     |                                    | (8,429)  |    | (105)            |    | (2,497)  |
| Total derivative assets — net (a)                             | \$                                 | 3,486    | \$ |                  | \$ | 4,931    |
|   |                                    |          |    |                  |    |          |
| Derivative liabilities:                                       |                                    |          |    |                  |    |          |
| Derivative liabilities not designated as hedging instruments: |                                    |          |    |                  |    |          |
| Commodity contracts   | \$                                 | (28,271) | \$ | (64,613)         | \$ | (19,995) |
| Total derivative liabilities — gross                          |                                    | (28,271) |    | (64,613)         |    | (19,995) |
| Gross amounts offset in the balance sheet                     |                                    | 8,429    |    | 105              |    | 2,497    |
| Cash collateral pledged                                       |                                    |          |    | 20,860           |    | 2,320    |
| Total derivative liabilities — net                            | \$                                 | (19,842) | \$ | (43,648)         | \$ | (15,178) |

<sup>(</sup>a) Derivative assets are recorded in "Prepaid expenses and other current assets" and "Other assets" on the Condensed Consolidated Balance Sheets.

#### **Notes to Condensed Consolidated Financial Statements**

(unaudited)

(Thousands of dollars, except where indicated otherwise)

#### **Effects of Derivative Instruments**

Derivative instruments gains (losses) reflected on the Condensed Consolidated Statements of Operations comprise the following:

|  |           | nths Ended<br>e 30, | Nine Mon<br>June | ths Ended e 30, | _   |
|--|-----------|---------------------|------------------|-----------------|---|
| Derivatives Not Designated as Hedging Instruments: | 2020      | 2019                | 2020             | 2019            | Location of Gain (Loss)<br>Recognized in Income |
| Commodity contracts                                | \$ 52,181 | \$ (13,466)         | \$ (3,666)       | \$ (91,971)     | Cost of sales — propane                         |

We are also a party to a number of contracts that have elements of a derivative instrument. These contracts include, among others, binding purchase orders, contracts that provide for the purchase and delivery of propane and service contracts that require the counterparty to provide commodity storage or transportation service to meet our normal sales commitments. Although certain of these contracts have the requisite elements of a derivative instrument, these contracts qualify for NPNS accounting under GAAP because they provide for the delivery of products or services in quantities that are expected to be used in the normal course of operating our business and the price in the contract is based on an underlying that is directly associated with the price of the product or service being purchased or sold.

#### Note 11 — Business Transformation Initiatives

During the fourth quarter of Fiscal 2019, we began executing on a multi-year business transformation initiative. This initiative is designed to improve long-term operational performance by, among other things, reducing costs and improving efficiency in the areas of sales and marketing, supply and logistics, operations, purchasing, and administration. In addition, this business transformation initiative also focuses on enhancing the customer experience through, among other things, enhanced sales and marketing initiatives and an improved digital customer experience. In connection with these initiatives, during the three and nine months ended June 30, 2020, we recognized \$2,700 and \$26,691, respectively, of expenses principally comprising consulting, advisory and employee-related costs. These costs are reflected in "Operating and administrative expenses" on the Condensed Consolidated Statements of Operations.

#### Note 12 — Related Party Transactions

**Partnership and Management Services Agreement.** The General Partner is entitled to reimbursement for all direct and indirect expenses incurred or payments it makes on behalf of the Partnership. These costs include employee compensation and benefit expenses of employees of the General Partner and general and administrative expenses.

Administrative Services. UGI provides certain financial and administrative services to the General Partner. UGI bills the General Partner monthly for all direct and indirect corporate expenses incurred in connection with providing these services and the General Partner is reimbursed by the Partnership for these expenses. The allocation of indirect UGI corporate expenses to the Partnership utilizes a weighted, three-component formula based on the relative percentage of the Partnership's revenues, operating expenses and net assets employed to the total of such items for all UGI operating subsidiaries for which general and administrative services are provided. The General Partner believes that this allocation method is reasonable and equitable to the Partnership.

In addition, UGI and certain of its subsidiaries provide office space, stop loss medical coverage and automobile liability insurance to the Partnership. These costs were not material during the three and nine months ended June 30, 2020 and 2019.

**Propane Purchases and Sales.** AmeriGas OLP purchases propane on an as needed basis from Energy Services. The price of the purchases is generally based on market price at the time of purchase. There were no purchases of propane by AmeriGas OLP from Energy Services during the three and nine months ended June 30, 2020 and 2019.

In addition, AmeriGas OLP sells propane to affiliates of UGI. Sales of propane to affiliates of UGI were not material during the three and nine months ended June 30, 2020 and 2019.

#### Note 13 — Impact of Global Pandemic

In March 2020, the WHO declared a global pandemic attributable to the outbreak and continued spread of COVID-19 that has had a significant impact throughout the global economy. In connection with the mitigation and containment procedures recommended by the WHO, the CDC, and as imposed by federal, state, and local governmental authorities, including shelter-in-place orders, quarantines and similar restrictions, the Partnership implemented a variety of procedures to protect its employees, third-party business partners, and customers. The Partnership continues to provide essential products and services to its customers in a safe and reliable manner, and will continue to do so in compliance with mandated restrictions presented by each of the markets it serves. The Partnership continues to evaluate and react to the potential effects of a prolonged disruption and the continued impact on its results of operations. These items may include, but are not limited to: the financial condition of its customers; decreased availability and demand for its products and services; realization of accounts receivable; impairment considerations related to certain current assets, long-lived assets and goodwill; delays related to current and future projects; and the effects of government stimulus efforts. While its operational and financial performance have been significantly impacted by COVID-19 in Fiscal 2020, the Partnership cannot predict the duration or magnitude of the outbreak and the total effects on its business, financial position, results of operations, liquidity or cash flows at this time.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### **Forward-Looking Statements**

Information contained in this Quarterly Report may contain forward-looking statements. Such statements use forward-looking words such as "believe," "plan," "anticipate," "continue," "estimate," "expect," "may," or other similar words. These statements discuss plans, strategies, events or developments that we expect or anticipate will or may occur in the future.

A forward-looking statement may include a statement of the assumptions or bases underlying the forward-looking statement. We believe that we have chosen these assumptions or bases in good faith and that they are reasonable. However, we caution you that actual results almost always vary from assumed facts or bases, and the differences between actual results and assumed facts or bases can be material, depending on the circumstances. When considering forward-looking statements, you should keep in mind the following important factors that could affect our future results and could cause those results to differ materially from those expressed in our forward-looking statements: (1) weather conditions resulting in reduced demand and the seasonal nature of our business; (2) cost volatility and availability of propane, and the capacity to transport propane to our customers; (3) the availability of, and our ability to consummate, acquisition or combination opportunities; (4) successful integration and future performance of acquired assets or businesses and achievement of anticipated synergies; (5) changes in laws and regulations, including safety, tax, consumer protection, data privacy, accounting matters, and environmental, including regulatory responses to climate change; (6) competitive pressures from the same and alternative energy sources; (7) failure to acquire new customers or retain current customers thereby reducing or limiting any increase in revenues; (8) liability for environmental claims; (9) increased customer conservation measures due to high energy prices and improvements in energy efficiency and technology resulting in reduced demand; (10) adverse labor relations; (11) customer, counterparty, supplier, or vendor defaults; (12) liability for uninsured claims and for claims in excess of insurance coverage, including those for personal injury and property damage arising from explosions, terrorism, natural disasters, pandemics and other catastrophic events that may result from operating hazards and risks incidental to transporting, storing and distributing propane and butane; (13) political, regulatory and economic conditions in the United States and foreign countries; (14) capital market conditions, including reduced access to capital markets and interest rate fluctuations; (15) changes in commodity market prices resulting in significantly higher cash collateral requirements; (16) the impact of pending and future legal proceedings; (17) the availability, timing, and success of our acquisitions and investments to grow our business; (18) the interruption, disruption, failure or malfunction of our information technology systems, including due to cyber attack; (19) our ability to achieve the operational benefits and cost efficiencies expected from the completion of pending and future internal business transformation initiatives; and (20) uncertainties related to a global pandemic, including the duration and/or impact of the COVID-19 pandemic.

These factors are not necessarily all of the important factors that could cause actual results to differ materially from those expressed in any of our forward-looking statements. Other unknown or unpredictable factors could also have material adverse effects on future results. We undertake no obligation to update any forward-looking statement whether as a result of new information or future events.

## **ANALYSIS OF RESULTS OF OPERATIONS**

The following analyses compare the Partnership's results of operations for the 2020 three-month period with the 2019 three-month period and the 2020 nine-month period with the 2019 nine-month period.

Our results are significantly influenced by temperatures in our service territories particularly during the heating season months of October through March. As a result, our operating results, after adjusting for the effects of gains and losses on commodity derivative instruments not associated with current-period transactions as further discussed below, are significantly higher in our first and second fiscal quarters.

AmeriGas Partners does not designate its propane commodity derivative instruments as hedges under GAAP. As a result, volatility in net income (loss) attributable to AmeriGas Partners as determined in accordance with GAAP can occur as gains and losses on commodity derivative instruments not associated with current-period transactions, principally comprising non-cash changes in unrealized gains and losses, are reflected in cost of sales. However, we expect that such gains and losses on such derivative instruments will be largely offset by gains and losses on anticipated future propane purchases.

AmeriGas Partners' management presents the non-GAAP measures "adjusted net income (loss) attributable to AmeriGas Partners," "adjusted total margin," and "adjusted operating income (loss)" (in addition to "net income (loss) attributable to AmeriGas Partners" determined in accordance with GAAP) in order to assist in the evaluation of the Partnership's overall performance. Management believes that these non-GAAP measures provide meaningful information to investors about

AmeriGas Partners' performance because they eliminate the impact of (1) changes in unrealized gains and losses on commodity derivative instruments not associated with current-period transactions and (2) other significant discrete items that can affect the comparison of year-over-year results. For additional information on these non-GAAP measures including reconciliations of these non-GAAP measures to the most closely associated GAAP measures, see "Non-GAAP Financial Measures" below.

#### **Recent Developments**

In March 2020, the WHO declared a global pandemic attributable to the outbreak and continued spread of COVID-19 that has had a significant impact throughout the global economy. In connection with the mitigation and containment procedures recommended by the WHO, the CDC, and as imposed by federal, state, and local governmental authorities, including shelter-in-place orders, quarantines and similar restrictions, we implemented a variety of procedures to protect our employees, third-party business partners, and customers. Although our results for Fiscal 2020 have been negatively impacted by COVID-19, we continue to provide essential products and services to our customers in a safe and reliable manner and will continue to do so in compliance with mandated restrictions presented by each of the markets we serve. We continue to evaluate and react to the potential effects of a prolonged disruption and the continued impact on our results of operations. These items may include, but are not limited to: the financial condition of our customers; decreased availability and demand for our products and services; realization of accounts receivable; impairment considerations related to certain current assets, long-lived assets and goodwill; delays related to current and future projects; and the effects of government stimulus efforts. We also remain focused on managing our financial condition and liquidity throughout this global crisis.

While our operational and financial performance have been significantly impacted by COVID-19 in Fiscal 2020, we cannot predict the duration or magnitude of the pandemic and its total effects on our business, financial position, results of operations, liquidity or cash flows at this time.

#### **Impact of Strategic Initiatives**

In Fiscal 2019, we began executing on LPG Business Transformation Initiatives designed to drive operational efficiencies, increase profitability and provide for an enhanced customer experience at our LPG business. We have engaged strategic partners to assist us in the identification and execution of these initiatives.

We are focused on efficiency and effectiveness initiatives in the following key areas: customer digital experience; customer relationship management; operating process redesign and specialization; distribution and routing optimization; sales and marketing effectiveness; purchasing and general and administrative efficiencies; and supply and logistics. The business activities will be carried out over the next two years and, once completed, are expected to provide more than \$120 million of annual savings that will allow us to improve profitability and cash flow through operational efficiencies and expense reductions and enable increased investment into base business customer retention and growth initiatives, including the reduction of margins in select segments of our base business. We estimate the total cost of executing on these initiatives, including approximately \$100 million of related capital expenditures, to be approximately \$175 million.

#### **Non-GAAP Financial Measures**

Our non-GAAP financial measures comprise adjusted total margin, adjusted operating income (loss) and adjusted net income (loss) attributable to AmeriGas Partners. Management believes the presentations of these non-GAAP financial measures provide useful information to investors to more effectively evaluate the period-over-period results of operations of the Partnership. Management uses these non-GAAP financial measures because they eliminate the impact of (1) changes in unrealized gains and losses on commodity derivative instruments not associated with current-period transactions and (2) other significant discrete items that can affect the comparison of year-over-year results.

The following table includes reconciliations of adjusted total margin, adjusted operating income (loss), and adjusted net income (loss) attributable to AmeriGas Partners to the most directly comparable financial measures calculated and presented in accordance with GAAP for the periods presented:

|   | Three Months Ended June 30, |        |    |         |    | Nine Mon<br>June |    |           |

#### **Executive Overview**

## Three Months Ended June 30, 2020 and 2019

We recorded GAAP net income attributable to AmeriGas Partners for the 2020 three-month period of \$35.5 million compared to GAAP net loss attributable to AmeriGas Partners of \$49.0 million in the prior-year period. GAAP net income (loss) in the 2020 and 2019 three-month periods reflects the effects of net unrealized gains of \$60.0 million and net unrealized losses of \$3.5 million, respectively, on commodity derivative instruments not associated with current-period transactions. GAAP net income in the 2020 three-month period also reflects \$2.7 million of business transformation expenses while GAAP net loss in the 2019 three-month period reflects \$1.8 million of merger expenses.

Adjusted net loss attributable to AmeriGas Partners for the 2020 three-month period was \$21.8 million compared with \$43.8 million in the prior-year period. The \$22.0 million improvement principally reflects lower operating and administrative expenses (excluding the effects of business transformation and merger expenses) and a slight increase in adjusted total margin in the 2020 three-month period. During the 2020 three-month period, average temperatures were 14.5% colder than normal and the prior-year period.

## Nine Months Ended June 30, 2020 and 2019

We recorded GAAP net income attributable to AmeriGas Partners for the 2020 nine-month period of \$286.3 million compared to GAAP net income attributable to AmeriGas Partners for the 2019 nine-month period of \$214.7 million. GAAP net income in the 2020 and 2019 nine-month periods reflects the effects of net unrealized gains of \$48.2 million and net unrealized losses of \$64.8 million, respectively, on commodity derivative instruments not associated with current-period transactions. GAAP net income in the 2020 nine-month period also reflects \$26.7 million of business transformation expenses while GAAP net income in the 2019 nine-month period reflects \$2.7 million of merger expenses.

Adjusted net income attributable to AmeriGas Partners for the 2020 nine-month period was \$264.8 million compared with \$281.5 million in the prior-year period. The \$16.7 million decrease in adjusted net income attributable to AmeriGas Partners principally reflects lower adjusted total margin attributable to decreased retail volumes sold partially offset by lower operating and administrative expenses (excluding the effects of business transformation and merger expenses). During the 2020 nine-month period, average temperatures were 1.5% warmer than normal and 5.3% warmer than the prior-year period.

#### RESULTS OF OPERATIONS

#### 2020 three-month period compared with the 2019 three-month period

| Three Months Ended June 30,                         |    | 2020   |    | 2019   |    | Increase (Decrease) |          |  |

| Adjusted net loss attributable to AmeriGas Partners | \$ | (21.8) | \$ | (43.8) | \$ | 22.0                | (50.2)%  |  |
| Heating degree days — % colder than normal (c)      |    | 14.5 % | ı  | — %    | ı  | _                   | _        |  |

- (a) Total margin represents total revenues less "Cost of sales propane" and "Cost of sales other." Total margin for the 2020 and 2019 three-month periods include the impact of net unrealized gains of \$60.0 million and net unrealized losses of \$3.5 million, respectively, on commodity derivative instruments not associated with current-period transactions.
- (b) These financial measures are non-GAAP financial measures and are not in accordance with, or an alternative to, GAAP and should be considered in addition to, and not a substitute for, the comparable GAAP measures. See section "Non-GAAP Financial Measures" above.
- (c) Deviation from average heating degree days for the 15-year period 2002-2016 based upon national weather statistics provided by NOAA for 344 Geo Regions in the United States, excluding Alaska and Hawaii.

N.M. - Variance is not meaningful

Average temperatures during the 2020 three-month period were 14.5% colder than normal and the prior-year period. Total retail gallons sold during the 2020 three-month period were 3.2% lower than the prior-year period principally reflecting the effects of

COVID-19, structural conservation and other residual volume loss. These decreases were partially offset by increased cylinder exchange volumes and higher volumes related to colder weather compared to the prior-year period.

Total revenues decreased \$27.9 million during the 2020 three-month period reflecting lower retail propane revenues (\$34.5 million) compared to the prior-year period, partially offset by higher other revenues related primarily to new cylinder tank sales (\$5.0 million) and higher wholesale propane revenues (\$1.6 million). The decrease in retail propane revenues reflects lower average retail selling prices (\$21.6 million) and the lower total retail volumes sold (\$12.9 million) compared to the prior-year period. Average daily wholesale propane commodity prices during the 2020 three-month period at Mont Belvieu, Texas, one of the major supply points in the U.S., were approximately 26% lower than such prices during the 2019 three-month period.

Total cost of sales during the 2020 three-month period decreased \$95.9 million from the prior-year period. Cost of sales in the 2020 and 2019 three-month periods include \$60.0 million of net unrealized gains and \$3.5 million of net unrealized losses, respectively, on commodity derivative instruments not associated with current-period transactions. Excluding the effects of sales of these commodity derivative instruments, total cost of sales decreased \$32.4 million principally reflecting the effects of the lower average propane product costs (\$35.5 million) partially offset by higher wholesale propane volumes (\$2.9 million).

Total margin (which includes the effects of the unrealized gains and losses on commodity derivative instruments not associated with current-period transactions) increased \$68.0 million during the 2020 three-month period. Adjusted total margin in the 2020 three-month period increased \$4.5 million largely reflecting higher average retail unit margins (\$11.9 million), including higher margin from the cylinder exchange program, partially offset by the previously mentioned decrease in total retail volumes sold (\$7.2 million).

Operating income (which includes the effects of the unrealized gains and losses on commodity derivative instruments not associated with current-period transactions, business transformation expenses and merger expenses) increased \$82.8 million compared to the prior-year period. Adjusted operating income was \$20.3 million higher than the 2019 three-month period principally reflecting the previously mentioned increase in adjusted total margin and lower operating and administrative expenses (\$22.9 million, excluding the effects of business transformation and merger expenses), partially offset by lower other income attributable to the suspension of customer late payment fees as part of our response to COVID-19. The decrease in operating and administrative expenses in the 2020 three-month period reflects, among other things, lower litigation expense (\$10.0 million), lower employee compensation and benefits-related costs (\$7.8 million), and decreased vehicle operating and maintenance expenses (\$3.5 million). The lower operating and administrative expenses reflect the partial benefits related to the previously mentioned ongoing LPG transformation initiatives.

The \$22.0 million improvement in adjusted net loss attributable to AmeriGas Partners in the 2020 three-month period reflects the \$20.3 million increase in adjusted operating income and slightly lower interest expense due to lower average Credit Agreement borrowings outstanding compared to the prior-year period.

#### 2020 nine-month period compared with the 2019 nine-month period

| Nine Months Ended June 30,                              | 2020 2019 |         |    |         | Increase (Decrease) |         |         |  |
|---|-----------|---------|----|---------|---------------------|---------|---------|--|

| Adjusted net income attributable to AmeriGas Partners   | \$        | 264.8   | \$ | 281.5   | \$                  | (16.7)  | (5.9)%  |  |
| Heating degree days — % (warmer) colder than normal (c) |           | (1.5)%  | 0  | 4.0 %   | <b>6</b>            | _       | _       |  |

- (a) Total margin represents total revenues less "Cost of sales propane" and "Cost of sales other." Total margin for the 2020 and 2019 nine-month periods include the impact of net unrealized gains of \$48.2 million and net unrealized losses of \$64.8 million, respectively, on commodity derivative instruments not associated with current-period transactions.
- (b) These financial measures are non-GAAP financial measures and are not in accordance with, or an alternative to, GAAP and should be considered in addition to, and not a substitute for, the comparable GAAP measures. See section "Non-GAAP Financial Measures" above.
- (c) Deviation from average heating degree days for the 15-year period 2002-2016 based upon national weather statistics provided by NOAA for 344 Geo Regions in the United States, excluding Alaska and Hawaii.

Average temperatures during the 2020 nine-month period were 1.5% warmer than normal and 5.3% warmer than the prior-year period. Total retail gallons sold during the 2020 nine-month period were 6.3% lower than the prior-year period reflecting the effects of COVID-19, structural conservation and other residual volume loss, and the effects of the warmer weather on heating-related sales. The decrease in total retail volumes was partially offset by higher cylinder exchange volumes compared to the prior-year period.

Total revenues decreased \$287.2 million during the 2020 nine-month period principally related to lower retail propane revenues (\$287.6 million) reflecting the effects of lower average retail selling prices (\$161.4 million) and the lower retail volumes sold (\$126.2 million). Wholesale propane revenues decreased \$3.9 million during the nine months ended June 30, 2020 reflecting lower average wholesale selling prices (\$13.1 million) partially offset by increased wholesale volumes (\$9.2 million). Average daily wholesale propane commodity prices during the 2020 nine-month period at Mont Belvieu, Texas, one of the major supply points in the U.S., were approximately 37% lower than such prices during the prior-year period.

Total cost of sales during the 2020 nine-month period decreased \$344.3 million compared to the prior-year period. Cost of sales in the 2020 and 2019 nine-month periods include \$48.2 million of unrealized gains and \$64.8 million of unrealized losses, respectively, on commodity derivative instruments not associated with current-period transactions. Excluding the effects on cost of sales of these commodity derivative instruments, total cost of sales decreased \$231.3 million principally reflecting the effects of lower average retail product costs (\$174.5 million) and lower retail propane volumes sold (\$57.3 million).

Total margin (which includes the effects of the unrealized gains and losses on commodity derivative instruments not associated with current-period transactions) increased \$57.1 million during the 2020 nine-month period. Adjusted total margin in the 2020

nine-month period decreased \$55.9 million largely attributable to the previously mentioned lower retail volumes sold (\$68.9 million) partially offset by slightly higher average retail unit margins (\$13.1 million) compared to the prior-year period.

Operating income (which includes the effects of the unrealized gains and losses on commodity derivative instruments not associated with current-period transactions, business transformation expenses and merger expenses) was \$65.5 million higher than the prior-year period. Adjusted operating income was \$23.5 million lower than the 2019 nine-month period reflecting the previously mentioned decrease in adjusted total margin and lower other income (\$4.6 million) attributable to the suspension of customer late payment fees as part of our response to COVID-19, partially offset by lower operating and administrative expenses (\$36.9 million excluding the effects of business transformation and merger expenses). The decrease in operating and administrative expenses in the 2020 nine-month period reflects, among other things, lower employee compensation and benefits-related costs (\$17.6 million), lower litigation expense (\$10.0 million), decreased vehicle operating and maintenance expenses (\$7.2 million) and lower business travel expenses (\$4.1 million). The lower operating and administrative expenses reflect the partial benefits related to the previously mentioned ongoing LPG transformation initiatives.

The \$16.7 million decrease in adjusted net income attributable to AmeriGas Partners in the 2020 nine-month period largely reflects the decrease in adjusted operating income partially offset by the absence of the noncontrolling interest impact (\$4.0 million) in the 2020 nine-month period and lower interest expense due to lower average Credit Agreement borrowings outstanding compared to the prior-year period.

#### FINANCIAL CONDITION AND LIQUIDITY

The Partnership expects to have sufficient liquidity including cash on hand and available credit agreement borrowings to continue to support long-term commitments and ongoing operations despite uncertainties associated with the outbreak and continued spread of COVID-19. The Partnership's liquidity has been positively influenced by continued low commodity prices experienced during the nine months ended June 30, 2020 and the expected low working capital requirements that typically occur during the second half of the Partnership's fiscal year. In addition, the Partnership does not have any near-term senior note maturities. While the Partnership's operational and financial performance has been significantly impacted by COVID-19 in Fiscal 2020, it is a rapidly evolving situation and the Partnership cannot predict the ultimate impact that COVID-19 will have on its liquidity, debt covenants, financial condition or the timing of capital expenditures. The Partnership was in compliance with its debt covenants as of June 30, 2020.

The Partnership's cash and cash equivalents at both June 30, 2020 and September 30, 2019 were \$7.8 million. The Partnership's debt outstanding at June 30, 2020, totaled \$2,726.2 million (including current maturities of long-term debt of \$6.2 million and short-term borrowings of \$162.0 million). The Partnership's debt outstanding at September 30, 2019, totaled \$2,892.6 million (including current maturities of long-term debt of \$7.7 million and short-term borrowings of \$328.0 million). Total long-term debt outstanding at June 30, 2020, including current maturities, comprises \$2,575.0 million of AmeriGas Partners' Senior Notes and \$10.0 million of other long-term debt, and is net of \$20.8 million of unamortized debt issuance costs.

At June 30, 2020, there were \$162.0 million of borrowings outstanding under the Credit Agreement. Issued and outstanding letters of credit under the Credit Agreement, which reduce the amounts available for borrowings, totaled \$62.7 million at June 30, 2020. At June 30, 2020, the Partnership's available borrowing capacity under the Credit Agreement was \$375.3 million. The average daily and peak short-term borrowings outstanding under the Credit Agreement during the 2020 ninemonth period were \$265.5 million and \$359.0 million, respectively. The average daily and peak short-term borrowings outstanding under the Credit Agreement during the 2019 nine-month period were \$281.8 million and \$422.0 million, respectively.

#### **Cash Flows**

**Operating activities.** Due to the seasonal nature of the Partnership's business, cash flows from operating activities are generally greatest during the second and third fiscal quarters when customers pay for propane consumed during the heating-season months. Conversely, operating cash flows are generally at their lowest levels during the first and fourth fiscal quarters when the Partnership's investment in working capital, principally accounts receivable and inventories, is generally greatest. The Partnership may use its Credit Agreement to satisfy its seasonal operating cash flow needs.

Cash flow provided by operating activities was \$362.4 million in the 2020 nine-month period compared to \$357.7 million in the 2019 nine-month period. Cash flow from operating activities before changes in operating working capital was \$372.0 million in the 2020 nine-month period compared to \$433.0 million in the prior-year period. The lower cash flow from operating activities

before changes in operating working capital principally reflects the lower operating income including incremental cash expenses associated with business transformation initiatives in the 2020 nine-month period. Cash used to fund changes in operating working capital was \$9.6 million in the 2020 nine-month period compared to \$75.3 million in the 2019 nine-month period. The lower cash required to fund changes in operating working capital reflects, among other things, higher cash from changes in accounts payable, and cash collateral deposits received in the current period as compared to cash collateral deposits paid in the prior-year period. This lower cash used was partially offset by an increase in cash required to fund changes in inventories as the prior-year period reflects the cash effects from a decline in propane commodity costs experienced during the prior year period.

*Investing activities.* Investing activity cash flow principally comprises expenditures for property, plant and equipment, cash paid for acquisitions of businesses and proceeds from disposals of assets. Cash flow used by investing activities was \$92.1 million in the 2020 nine-month period compared with \$68.6 million in the prior-year period. The Partnership spent \$104.4 million for property, plant and equipment in the 2020 nine-month period compared with \$77.8 million in the 2019 nine-month period. Capital expenditures in the 2020 nine-month period include higher capital expenditures associated with business transformation initiatives and ACE vending machines.

Financing activities. Financing activity cash flow principally comprises distributions on AmeriGas Partners Common Units, issuances and repayments of long-term debt, and short-term borrowings/repayments. Cash used by financing activities was \$270.4 million in the 2020 nine-month period compared with \$294.0 million in the prior-year period. The higher distributions paid during the 2019 nine-month period includes \$198.1 million of distributions paid on publicly held Common Units prior to the AmeriGas Merger. Net cash used for repayments of Credit Agreement borrowings in the 2020 nine-month period totaled \$166.0 million compared to net borrowings of \$16.5 million in the prior-year period.

#### QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our primary financial market risks include commodity prices for propane. Although we use derivative financial and commodity instruments to reduce market price risk associated with forecasted transactions, we do not use derivative financial and commodity instruments for speculative or trading purposes.

## **Commodity Price Risk**

The risk associated with fluctuations in the prices the Partnership pays for propane is principally a result of market forces reflecting changes in supply and demand for propane and other energy commodities. The Partnership's profitability is sensitive to changes in propane supply costs and the Partnership generally passes on increases in such costs to customers. The Partnership may not, however, always be able to pass through product cost increases fully, or keep pace with such increases, particularly when product costs rise rapidly. In order to reduce the volatility of the Partnership's propane market price risk, we use contracts for the forward purchase or sale of propane, propane fixed-price supply agreements, and over-the-counter derivative commodity instruments including price swap contracts. Over-the-counter derivative commodity instruments utilized by the Partnership to hedge forecasted purchases of propane are generally settled at expiration of the contract. These derivative financial instruments contain collateral provisions. The fair value of unsettled commodity price risk sensitive instruments at June 30, 2020, was a net loss of \$16.4 million. A hypothetical 10% adverse change in the market price of propane would result in a decrease in such fair value of approximately \$23.7 million.

In addition, the Partnership from time to time enters into diesel swap contracts for a portion of diesel volumes expected to be used in the operation of vehicles and equipment. At June 30, 2020, volumes associated with these price swap contracts were not material.

#### **Derivative Instruments Credit Risk**

The Partnership is exposed to credit loss in the event of nonperformance by our derivative instrument counterparties. Our derivative instrument counterparties principally comprise major energy companies and major U.S. financial institutions. We maintain credit policies with regard to our counterparties that we believe reduce overall credit risk. These policies include evaluating and monitoring our counterparties' financial condition, including their credit ratings, and entering into agreements with counterparties that govern credit limits. Certain of these agreements call for the posting of collateral by the counterparty or by the Partnership in the forms of letters of credit, parental guarantees or cash. Although we have concentrations of credit risk associated with derivative instruments, the maximum amount of loss we would incur if the counterparties failed to perform according to the terms of their contracts, based upon the gross fair values of the derivative instruments, was not material at June 30, 2020. Certain of our derivative contracts have credit-risk-related contingent features that may require the posting of additional collateral in the event of a downgrade in the Partnership's debt rating. At June 30, 2020, if the credit-risk-related contingent features were triggered, the amount of collateral required to be posted would not be material.

#### CONTROLS AND PROCEDURES

#### (a) Evaluation of Disclosure Controls and Procedures

The General Partner's disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by the Partnership in this Quarterly Report is (i) recorded, processed, summarized, and reported within the time periods specified in the indentures, and (ii) accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. The General Partner's management, with the participation of the General Partner's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Partnership's disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Partnership's disclosure controls and procedures, as of the end of the period covered by this report, were effective at the reasonable assurance level.

## (b) Change in Internal Control over Financial Reporting

No change in the Partnership's internal control over financial reporting occurred during the Partnership's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Partnership's internal control over financial reporting.

## RISK FACTORS

In addition to the information presented in this report, you should carefully consider the factors discussed in "Risk Factors" in our 2019 Annual Report and the Quarterly Report for the fiscal quarter ended March 31, 2020, which could materially affect our business, financial condition or future results. The risks described in our 2019 Annual Report and the Quarterly Report for the fiscal quarter ended March 31, 2020 are not the only risks facing the Partnership. Other unknown or unpredictable factors could also have material adverse effects on future results.

## **EXHIBIT INDEX**

- 31.1 Certification by the Chief Executive Officer.
- 31.2 Certification by the Chief Financial Officer.
- 32 Certification by the Chief Executive Officer and the Chief Financial Officer.

## **SIGNATURES**

The Partnership has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.

#### **CERTIFICATION**

I, Hugh J. Gallagher, certify that:

- 1. I have reviewed this quarterly report of AmeriGas Partners, L.P. (the "Company");
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Company as of, and for, the periods presented in this report;
- 4. The Company's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures and internal control over financial reporting for the Company and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the Company's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter (the Company's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The Company's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Company's auditors:
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Company's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Company's internal control over financial reporting.
